#### **4. First – aid measures**

**First-aid measures:**

**Inhalation:** If inhaled, remove to fresh air and gargle with plenty of water. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention.

**Ingestion:** Rinse out the mouth. Drink one or two glasses of water to dilute. Seek medical treatment if necessary.

**Skin contact:** Wash with soap and water. Get medical attention if irritation develops.

**Eye contact:** Check for and remove any contact lenses. In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention

#### **5. Fire – fighting measures**

**Extinguishing media**

**Extinguishing Media:** Water spray, CO<sub>2</sub>, foam and dry chemical. Do not use water jet.

**Hazardous thermal decomposition products:** These products are carbon oxides (CO<sub>2</sub>, CO) and smoke.

**Fire and Explosion Hazards:** If dispersed in air, like most finely divided organic powders, may form an explosive mixture.

**Protection of fire-fighters:** Use self-contained breathing apparatus.

#### **6. Accidental release measures**

**Personal precautions:** Avoid inhalation, ingestion, eye and skin contact in case of accidental release.

**Environmental precautions and clean-up methods:** No special precaution. Do not discharge into drains, rivers or the environment, dispose of waste toner in accordance with local requirements. Slowly sweep the material into a bag or other sealed container. Clean remainder with a damp cloth or vacuum cleaner. If a vacuum is used, it must be equipped with high efficiency particulate air filter and the motor must be rated as dust explosion-proof.

NOTE: see section 8 for personal protective equipment and section 13 for waste disposal.
