1.Identification of the substance/preparation and of the company/undertaking

| Product name: | Toner d-Copia MF350 |
|----------------------|--|
| Code number: | B0733 |
| Product description: | Toner magenta for printers and laser photocopy machines |
| Company name: | Olivetti S.p.A. |
| | Via Jervis 77 |
| | 10015 Ivrea (TO) - ITALY |
| For information: | Tel. 0039 (0)125 522710 |
| | Fax 0039 (0)125 522711 |
| | e-mail : <u>supplies@olivetti.com</u> |
| For emergency: | Centro Antiveleni-Ospedale Niguarda (Milano) 0039 (0)2 66101029 |

2. Hazards identification

The preparation has not been classified as a dangerous according to directive 1999/45/EC,
D.M. 28/1/1992, D.Lgs. 3/2/1997 n.52, D.Lgs..Skin contact:Unlikely to cause skin irritation.Ingestion:Ingestion is not applicable route of entry for intended use.Inhalation:Prolonged inhalation of excessive dusts may cause lung damage.
Use of this product, as intended, does not result in inhalation of excessive
dusts.Eye contact:May cause eye irritation.Specific Hazards:Dust explosion, like most finely divided organic powder.

3. Composition / information on ingredients

| Chemical name* | Weight % | CAS number | EINECS number | EU classification |
|----------------------------|----------|------------|---------------|-------------------|
| Styrene acrylate copolymer | 75-85 | - | - | Not classified |
| Organic pigment 1 | 1-10 | - | - | Not classified |
| Organic pigment 2 | 1-10 | - | - | Not classified |
| Amorphous silica | 1-10 | 7631-86-9 | 231-545-4 | Not classified |
| Wax | 10-20 | - | - | Not classified |
| Wax 2 | 1-10 | - | - | Not classified |
| Titanium oxide | <1 | 13463-67-7 | 236-675-5 | Not classified |

Material Safety Data Sheet According to the directive 91/155/CEE According to the regolament CE 1907/2006 Issue Date: 01/02/2008 data Rev. Date:01/02/2008 Data sheet B0733 in Rev. n. 0

4.First – aid measures

| First-aid measures: | |
|---------------------|--|
| Inhalation: | If inhaled, remove to fresh air and gargle with plenty of water. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention. |
| Ingestion: | Rinse out the mouth. Drink one or two glasses of water to dilute. Seek medical treatment if necessary. |
| Skin contact: | Wash with soap and water. Get medical attention if irritation develops. |
| Eye contact: | Check for and remove any contact lenses. In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention |

5. Fire – fighting measures

| Extinguishing media | |
|--|---|
| Extinguishing Media: | Water spry, CO ₂ , foam and dry chemical. Do not use water jet. |
| Hazardous thermal decomposition products: | These product are carbon oxides (CO ₂ ,CO) and smoke. |
| Fire and Explosion Hazards: | If dispersed in air, like most finely divided organic powders, may form an explosive mixture. |
| Protection of fire-fighters: | Use self-contained breathing apparatus. |

6.Accidental release measures

| Personal precautions: | Avoid inhalation, ingestion, eye and skin contact in case of accidental release. |
|---|--|
| Environmental precautions and clean- up methods: | No special precaution. Do not discharge into drains, rivers or the environment, dispose of waste toner in accordance with local requirements. Slowly sweep the material into a bag or other sealed container. Clean remainder with a damp cloth or vacuum cleaner. If a vacuum is used, it must be equipped with high efficiency particulate air filter and the motor must be rated as dust explosion-proof. |

NOTE: see section 8 for personal protective equipment and section 13 for waste disposal.

| 7.Handling and ste | orage |
|--------------------|--|
| Handling | Keep away from heat. Keep away from sources of ignition. Do not ingest. Do not breathe dust. Avoid contact with eyes. |
| Storage: | Keep container tightly closed and store in a cool, dry and well-ventilated area. Keep out of reach of children. |

8.Exposure controls/personal protection

| Ventilation: Hygiene measures: | Ventilation is not required under normal use, Wash hands after handling compounds and before eating, smoking, using lavatory, and at the end of day. |
|-----------------------------------|--|
| Occupational Exposure limits | , , , , , , , , , , , , , , , , , , , |
| ACGIH TLV-TWA (2005) : | 10 mg/m ³ TLV-TWA particulates not otherwise specified (Inhalable fraction). |
| ACGIH TLV-TWA (2005) : | 3 mg/m ³ TLV-TWÁ particulates not otherwise specified (Respirable fraction). |
| ACGIH TLV-TWA (2005) : | 10 mg/m ³ TLV-TWA as titanium oxide |
| Personal protective equipment | Not necessary for the normal use. In case of accidental dispersion used respiratory protection (P2), eye protection, hand protection. |

9.Physical and chemical properties

| Physical state: | Solid (powder). | |
|-----------------------|---------------------|--|
| Color: | Red. | |
| рН | Not applicable. | |
| Odor: | Almost odorless. | |
| Melting point: | 125C°. | |
| Explosive properties: | No data available. | |
| Specific Gravity: | 1.2 (bulk density) | |
| Solubility: | Insoluble in water. | |

10.Stability and reactivity

| Stability: Hazardous Reactions: | The product is stable under normal use. Dust explosion, like most finely divided organic powders. |
|--|--|
| Conditions to avoid: Materials to Avoid: Hazardous decomposition products: | Electric discharge, throwing into fire. Oxidizing materials. These product are carbon oxides (CO_2, CO), nitrogen oxides (NO_x) and smoke |

11. Toxicological information

| Acute toxicity oral (LD ₅₀): Acute toxicity dermal (LD ₅₀): Acute toxicity inhalation (LC ₅₀): Eye irritation: | >2500 mg/kg (rat) Not available. >4.90(Rat) Not irritant (rabbit). |
|---|--|
| Skin irritation: | Not irritant (rabbit). |
| Skin sensitizer: | Non sensitization. |
| Chronic Toxicity or Long Term | Prolonged inhalation of excessive dust may cause lung damage. |
| Toxicity: | Use of this product, as intended, does not result in inhalation of excessive dust. |
| Carcinogenicity: | No carcinogen according to IARC and EU Directive(67/548/EEC). |
| Mutagenicity (Ames test): | Negative. |

12. Ecological information

No data are available on the adverse effects of this material on the environment.

13.Disposal considerations

Dispose in according to 75/442/CEE and following modifications (91/156/CEE, 91/692/CEE, 96/59/CE and 96/350/CE) and in according to:

- Directive 91/689/CEE dangerous waste.
- Resolution 2000/532/CE and following modifications about institution of a new community waste's list.
- Directive 94/62/CE about packages and package's waste.

14.Transport information

No special precaution.

15.Regulatory information

EU regulations

Classification and labelling have been performed according to EU directives 67/548/EEC, 1999/45/EC including amendments.

Symbol and Indication : R-Phrase : S-Phrase : Not required. Not required. Not required.

16. Other information

This Material Safety Data Sheet was prepared in compliance with EU Directive 91/155/EEC including amendments.

This information adds to those contained in the 'Instructions of use' for same product, but does not substitute them.

The information contained herein relates only to the referred product as manufactured and put into the market, and is not valid for other combinations of same materials.

It is the user's responsibility to determine the suitability of such information for his intended use. <Abbreviation>

IARC: International Agency for Research on Cancer.

LD₅₀: Lethal Dose 50: is the amount of a material, given all at once, which causes the death of 50% (one half) of a group of test animals.

LC₅₀: Lethal concentration 50: the concentration of the chemical in air that kills 50% of the test animals in a given time (usually four hours) is the LC50 value.

ACGIH: American Conference of Governmental Industrial Hygienists.

EINECS: European Inventory of Existing Commercial Substances.

CAS: Chemical Abstract Service.
